

WINERY SANITATION

Alkaline Products

MADISON PBC – A powder used for general cleaning of Fermentation Tanks and tartrate deposits. Excellent odor reducing, stain removing dry form of Hydrogen Peroxide. A must have.

ProClean® BOIL OUT – A liquid non-foaming, heavy-duty, alkaline cleaner for tough, burned-on soils.

ProClean® FOAM – A liquid chlorinated, alkaline foaming cleaner, ideal for hard water conditions, with excellent cleaning properties for food soils.

Acid Products

ProClean® CIP ACID – A liquid heavy-duty, non-foaming acid C.I.P. cleaner containing phosphoric and nitric acids.

ProClean® FOAMING ACID – A liquid foaming acid cleaner containing phosphoric and nitric acids.

DRY ACID K – Powder manually-used cleaner which works well for removing water scale, tartrate deposits and metal impurities.

Sanitizers

OXYWAVE – A peroxyacetic acid sanitizer that utilizes Hydrogen Peroxide's excellent odor reducing and microbial kill properties.

MADISAN 75 – A 4-chain quaternary sanitizer.

MADISON SUPER SAN – A low foaming, non-iodine, blended acid CIP sanitizer.

Conveyor Lubricant

HYPERLUBE 300 C – A liquid highly concentrated synthetic which provides a cleaning, microbial resistant solution for lubrication of tabletop conveyors. Outstanding economy provides significant cost savings over other competitive products.
